E-Safety: How To Keep Children Safe Online

The internet is always changing, and being able to keep up to date with your children's use of technology can be a challenge, especially if you feel that your children may have better technical skills than you do. However, children and young people still need support and guidance when it comes to managing their lives online and using the internet positively and safely.

Key Role of schools?

It is our experience that this is best achieved by embedding e - safety across the curriculum or the work of the organisation, through a framework of effective policies and routes for reporting concerns such as cyberbullying. As well as supporting young people to stay safe online, staff also need to protect their own online reputation, particularly when using social networking sites.

Dates at a glance [so far...]
