E-Safety : Online Grooming Safety Guide for Parents

Please read the e-safety **Online Grooming Safety Guide for Parents** which has been sent on ParentMail

Grooming is when someone befriends and builds an emotional connection with a child to gain their trust for the purposes of sexual abuse or exploitation. They can do this both offline and online, with technology and the Internet being commonly used to initiate and facilitate contact with a child. Gaining victims' trust is a key part of engaging them in sexually explicit behaviour. The groomer, who can either be a stranger or someone a child already knows, tends to use tactics such as engaging in small talk or exchanging personal information with the child about hobbies and relationships, using flattery and gifts to build a rapport or even making threats and intimidation to gain control. This can take place over varying periods of time – from a few days to several years. It is illegal in the UK for an adult to send a sexual message to a child.
