Growth Mindset Strategies

What I will be learning

1. Who L.S. Lowry is.
2. How to mix colours to create shades.
3. Where to find the midground in a picture.
4. How to draw matchstick figures.
5. How to create perspective in a picture.

What I will know and be able to do at the end of the topic.

Who is L. S. Lowry?

Laurence Stephen **Lowry** was born in 1887 and died in 1976. He was an English artist famous for paintings about urban life.

What does perspective mean?

The way that objects appear smaller when they are further away and the way parallel lines appear to meet each other at a point in the distance.

How and why do you create different shades of colour?

A shade is a mixture of a colour with black. Artists use shading to show light and shadows. When artists make the colour of what they are painting darker, it makes it look further away from the light and three-dimensional.

Tell me about when you created a background in another medium.

For the Great Fire of London I used chalk and tissue paper behind black silhouettes.

Tell me about when you use art in other subjects.

I use art in English to draw illustrations and to help me imagine a story sequence.
